

## Basic Skills Awareness Raising

This is an ESF funded project running from 2005-07 to raise awareness of how improving Basic Skills can enrich the lives of young people and adults. We aim to reach 50 front line workers who can then signpost colleagues, clients and any other potential learners with whom they are in contact to good quality Basic Skills provision.

ROWA! is supported in the project by Amicus the Union, Skills for Care, Chesterfield Primary Care Trust, the Learning and Development Consortium, Derbyshire County Council Cultural and Community Services and Derbyshire Learning and Skills Council.
