The Very Strange Night

BY ASHLEA

It was wintertime and it was snowing really hard. Some teenagers called Sita, Nicki, Joe and Ashleigh were walking up a hill near Greenhill Rise.

Then suddenly, the street lights went off. It was dark and spooky. Next they were scared. They heard noises in the trees and saw lots of shadows. After that the shadows made them really scared and worried, but it was too dark and they couldn't find their way home.

Suddenly, they saw some lights shining very brightly, so they walked towards them and realized that there was a party on the field. They walked towards the field feeling excited. There was a lot of shouting and happy noises.

Soon they got closer and found out it was a fair and they ran to it joyfully. When they got to the fair the first ride they went on was the Twirly Tube ride. It made them dizzy and scared.

Suddenly, Joe went off to get a Hot-Dog and Nicki took Joe's place. Joe got back in the line with his Hot-Dog and they started to fight. Ashleigh and Sita did not like it.

Later on Ashleigh cried, "Stop it, you are going to fall out" and Nicki said, "Good idea, let's fall out." Nicki and Joe left, they went on separate rides. Joe went on the Humpty Dumpty and Nicki went on the Merry-Go-Round.

Joe took a bit from his Hot-Dog and realized it was poisonous. His face turned green and everyone screamed. Sita decided to phone for an ambulance. The ambulance came straightaway. The light on the ambulance was very bright.

Soon Joe got into the ambulance and waved goodbye to Sita and Ashleigh. The ambulance drove off with Joe. Joe looked at the driver and realized it was an

alien. The alien looked at Joe and said to the other alien, "Let's take him to our planet." They set off in the ambulance to their planet.

When they got there the planet was really rocky and it was hard to walk on. The alien took Joe back to his alien house. He tied Joe up with some rope and he thought he would be there forever. Soon Joe found a loose knot and he decided to pull it with his teeth. Then suddenly Joe's front teeth popped out. Later, the alien saw the knot was undone and tied it back up. Then Joe's gum started to bleed.

Joe felt scared and wanted someone to help him. Suddenly he saw Nicki through the window. He was pleased to see her because he knew he would be rescued. Soon Nicki shot through the window and took Joe, but when they both got back to the spaceship it was broken. So they took the alien's spaceship and then they went back to Joe's house and Joe saw he had a green face.

When they got back home Ashleigh and Sita shouted, "Surprise!" Joe's face had turned back to normal and everyone was pleased that his front teeth were no longer missing. Joe said that mum and dad would not believe what they had done. Mum and dad laughed when they hear their story.
