

## **The Holiday Adventure (a soap opera)**

It all started when a family and their dog went on holiday to a castle in Scotland. They knocked on the enormous door with a great big brass knocker. Someone answered the door, he said "I am Jim, my wife is Maggie, we own the castle; let me show you to your rooms."

"Wow!" shouted Joe. "This room is massive."

Ashley was walking down the corridor and he stopped to look at some posters and one said:

"I know the answer, Tracy Barlow," said Ashley. So he sent off the answer form and one week later Ashley found out he had won. He was skipping around the castle with joy. Suddenly everyone rushed up to him saying, can I have a new bike; can I have a new kitten; can I have a new car?

"NO!" shouted Ashley.
