

Titan Sinks!!!
by James, Y4 Parkdale Primary School

In 1912 Sita, Nicki, Joe and Ashley were aboard the ship called Titan. Sita and Nicki were twins and so were Joe and Ashley but they did not know each other at the time. After a few days they were walking along the deck and bumped into each other. They realised that they could be good friends because they had a lot of things in common, like they were all about the same age. They were all in their teens.

As they were walking they were talking about what they had done in the past. Joe looked very cool in his shirt, braces and flat cap. Everyone else was dressed very smartly, but Joe stood out from the crowd.

When they got to the back of the boat they suddenly saw a bat trying to catch up with the boat. The bat was quite small with sharp teeth sticking out of his mouth. Joe thought this was a bit weird and the others were shocked and surprised. They started to run along the deck into Joe's and Ashley's cabin. "That was close," said Joe.

The next day they saw something weirder, a man with a cloak, carrying it above his head and shading his face, but the four friends did not know he was half vampire and half human. The vampire ran past quickly towards the steering deck and sneaked behind the captain and the man steering the boat, then bit the captain at the side of the neck. He also bit the other person in the same way. This caused the boat to go into an iceberg and crash. Someone set the alarm off and everyone ran out of the cabins and to the lifeboats. There were not enough boats to get the four friends and a lot more people off the sinking ship.

Joe and his friends knew they could not get on to a boat and Ashley quickly came up with a great idea. He said to his friends, "Go to the back of the ship now, it is the safest place on the whole boat. Now go." Ashley was going mad, but he was not stupid. The three friends agreed with his straight away, so they all sprinted to the back of the boat and climbed over the rail and hung on for their lives.

Nicki was the cleverest of them all and she came up with the best idea. She said to the others, "Jump off the boat when I say."

"What, are you crazy?" shouted Sita.

"We are not jumping off the boat," said Joe frightened.

"We have to," yelled Nicki.

"Oh all right we will," they all screamed.

"Now jump in, 321 go!" shouted Nicki, so they all jumped off the boat and into the ice cold water.

Suddenly the vampire swooped down from the sky and grabbed Nicki and took her to safety. One by one he did this with the four friends until all of them were safe on the rescue ship. As they turned around they saw the Titan had vanished and the people in the water, who didn't get on the life boats, were saved by the rescue ship.

The vampire was never seen again because without anybody knowing he turned into a human again.
