

Skills for Life Continuing Professional Development

The aim of this ESF funded project, which was extended by a year to June 2008, was to improve the Skills for Life activity throughout Derbyshire by supporting the delivery and development of Levels 2, 3 and 4 training and providing access to online support, advice and guidance on professional development opportunities for existing and potential SFL practitioners and those who support/signpost adults with SFL needs.

The website is still live and you can access it, for information about professional development opportunities and advice for Adult SFL Tutors, at www.eastmidlandscpd.co.uk
